SUMMARY

Senior Product Designer with 15 years designing and shipping complex B2B products.

Recent work centres on complex journeys, from multi-step configuration and its edge cases to approval workflows, taken from discovery to shipped UI with Product and Engineering.

EXPERIENCE

Senior Product Designer

Remuner

May 2024 - Mar 2026 · Barcelona, hybrid

- Owned product design across Remuner's sales-compensation platform as its sole designer. Scope spanned data integrations and configuration, compensation plans and payouts, rep and manager experiences, approval workflows, and administration.
- Adapted the responsive web product for mobile and shipped it as live iOS and Android webview apps.
- Designed and shipped a conversational AI agent for commissions and sales plans; owned conversation design, answer formats, and trust patterns, with capability decisions shared with founders and engineering.
- Built interactive product prototypes through AI-assisted workflows for users to test, separate from the production application.

Senior Product Designer

Abacum

Jan 2022 - Apr 2024 · Barcelona, hybrid

- Designed workflows across Abacum's data-integration and financial-modeling areas, first in the Integrations squad and later Engine. Work spanned integrations, datasets, dimensions and mappings, models, and the modeling language.
- Led design and customer testing for Dataset Manager, translating JSON configuration into guided workflows for finance teams. The squad's engineers estimated that standard configuration took roughly half the previous time.
- Proposed moving dimension creation into the open dataset, so users no longer left a configuration halfway to create one elsewhere. Product and Engineering built it, and customers reported faster setup and fewer errors.
- Co-led the Abax design-system business case with the head of design and worked on token architecture, components, governance, and the engineering pipeline across five squads. Abax reached about 47% of component uses at departure, against an 80% goal.

Co-founder & Senior Product Designer

Kings of Mambo

Sep 2010 - Nov 2021 · Barcelona, on-site, later hybrid

- Co-founded and ran a UX studio for 11 years, designing products for media, retail, finance, legal, and culture clients.
- Owned several client accounts end to end: the brief and client meetings, design direction and explorations, delivery, and the iterations that followed.
- Designed CMS content-upload flows, e-commerce experiences, and back-office interfaces, and built CMS-connected front ends and reusable component libraries.

SKILLS

Product design and research: Complex journeys and edge cases, information architecture, interaction design, visual design, multi-step flows, customer interviews, structured user testing
AI-assisted workflows and prototyping: Interactive prototypes, Figma MCP with Claude, Codex, Figma Make, Figma, FigJam, HTML, CSS, JavaScript
Design systems and collaboration: Component architecture, states and variants, design tokens, implementation review, design critique, designer mentoring
Languages: Catalan and Spanish (native), English (fluent, C1)

EDUCATION

Higher National Diploma in Computing Design and Multimedia

ESI Barcelona
