SUMMARY

Senior Product Designer with 15 years designing and shipping complex B2B products.

Recent work is hands-on UI and design-system craft in Figma, from component variants and libraries to web and mobile-web interfaces and Storybook views for engineering.

EXPERIENCE

Senior Product Designer

Remuner

May 2024 - Mar 2026 · Barcelona, hybrid

- Owned product design across Remuner’s sales-compensation platform as its sole designer. Scope spanned data integrations and configuration, compensation plans and payouts, rep and manager experiences, approval workflows, and administration.
- Built the component library and owned the token system; used the Figma MCP with Codex, then Claude, to bring in-use colours to WCAG AA, generate variants with props matching engineering, and produce Storybook views and documentation.
- Adapted the responsive web product for mobile and shipped it as live iOS and Android webview apps.
- Built interactive product prototypes through AI-assisted workflows for users to test, separate from the production application.

Senior Product Designer

Abacum

Jan 2022 - Apr 2024 · Barcelona, hybrid

- Designed workflows across Abacum’s data-integration and financial-modeling areas, first in the Integrations squad and later Engine. Work spanned integrations, datasets, dimensions and mappings, models, and the modeling language.
- Co-led the Abax design-system business case with the head of design and worked on token architecture, components, governance, and the engineering pipeline across five squads. Abax reached about 47% of component uses at departure, against an 80% goal.
- Led design and customer testing for Dataset Manager, translating JSON configuration into guided workflows for finance teams. The squad's engineers estimated that standard configuration took roughly half the previous time.

Co-founder & Senior Product Designer

Kings of Mambo

Sep 2010 - Nov 2021 · Barcelona, on-site, later hybrid

- Co-founded and ran a UX studio for 11 years, designing products for media, retail, finance, legal, and culture clients.
- Owned several client accounts end to end: the brief and client meetings, design direction and explorations, delivery, and the iterations that followed.
- Designed e-commerce experiences, CMS content-upload flows, and back-office interfaces, and built CMS-connected front ends, reusable component libraries, and a shared starter kit with CSS variables.

SKILLS

UI and product design: Visual design, interaction design, responsive web and mobile web, multi-step flows, information architecture, prototyping, user testing
Design systems: Figma libraries, variants and variables, design tokens, Storybook, documentation, accessibility (colour contrast to WCAG AA)
AI-assisted workflows and front end: Figma MCP with Claude, Codex, Figma Make, HTML, CSS, JavaScript
Languages: Catalan and Spanish (native), English (fluent, C1)

EDUCATION

Higher National Diploma in Computing Design and Multimedia

ESI Barcelona
