SUMMARY

Senior Product Designer with 15 years designing and shipping complex B2B products.

Takes features from customer interviews and prototypes to release, then reworks them from user feedback, most recently for finance teams and sales reps.

EXPERIENCE

Senior Product Designer

Remuner

May 2024 - Mar 2026 · Barcelona, hybrid

- Owned product design across Remuner's sales-compensation platform as its sole designer. Scope spanned data integrations and configuration, compensation plans and payouts, rep and manager experiences, approval workflows, and administration.
- Investigated unclear commission information through user interviews and designed dashboard changes that shipped; user testing showed users understood the plan calculations and payout timing they had previously been missing.
- Designed and shipped a conversational AI agent for commissions and sales plans; owned conversation design, answer formats, and trust patterns, with capability decisions shared with founders and engineering.
- Built interactive product prototypes through AI-assisted workflows for users to test, separate from the production application.
- Built and maintained Remuner's component library and token system from scratch.

Senior Product Designer

Abacum

Jan 2022 - Apr 2024 · Barcelona, hybrid

- Designed workflows across Abacum's data-integration and financial-modeling areas, first in the Integrations squad and later Engine. Work spanned integrations, datasets, dimensions and mappings, models, and the modeling language.
- Led design and customer testing for Dataset Manager, turning JSON configuration into guided workflows for finance teams. The implementation team's read was that standard configuration took roughly half the previous time.
- Led research and design for a consistent formula language, using customer evidence and competitor benchmarking to shape syntax decisions with Engineering.
- Worked on the Abax design system's token architecture, components, and governance across five squads.

Senior Product Designer & Co-founder

Kings of Mambo

Sep 2010 - Nov 2021 · Barcelona, hybrid

- Co-founded and led a UX studio for 11 years; designed websites and products for media, retail, finance, legal, and culture clients.
- For Kymco, owned the design process and frontend implementation of shopping and checkout flows that launched and took real orders.
- Designed CMS content workflows and back-office interfaces, and built CMS-connected front ends and reusable component libraries.

SKILLS

Product design and research: End-to-end feature design, customer interviews, usability testing, multi-step flows, interaction and visual design
Design systems: Components, states and variants, Figma libraries and variables, design tokens, documentation
AI-assisted workflows and prototyping: Codex, Figma Make, Figma, FigJam, HTML, CSS, JavaScript
Languages: Catalan and Spanish (native), English (fluent, C1)

EDUCATION

Higher National Diploma in Computing Design and Multimedia

ESI (Escuela de Sistemas Informáticos)

2002
