SUMMARY

Senior Product Designer with 15 years designing and shipping complex B2B products.

Recent work is in fintech: financial modeling at Abacum and commissions and payouts at Remuner, turning fixed financial rules into flows that people without technical training can use.

EXPERIENCE

Senior Product Designer

Remuner

May 2024 - Mar 2026 · Barcelona, hybrid

- Owned product design across Remuner’s sales-compensation platform as its sole designer. Scope spanned data integrations and configuration, compensation plans and payouts, rep and manager experiences, approval workflows, and administration.
- Interviewed the users who called the rep dashboard unintuitive and found they read displayed commission as this period's payout, though payouts were quarterly. Designed a plan-calculation explainer and payout-timing indicator; shipped and retested with users.
- Adapted the responsive web product for mobile and designed the app-wrapper UX, shipped as iOS and Android apps in summer 2024 and still live in both stores.
- Designed and shipped a conversational AI agent for commissions and sales plans; owned conversation design, answer formats, and trust patterns, with capability decisions shared with founders and engineering.

Senior Product Designer

Abacum

Jan 2022 - Apr 2024 · Barcelona, hybrid

- Designed workflows across Abacum’s data-integration and financial-modeling areas, first in the Integrations squad and later Engine. Work spanned integrations, datasets, dimensions and mappings, models, and the modeling language.
- Led design and customer testing for Dataset Manager, translating JSON configuration into guided workflows for finance teams. The implementation team's read was that standard configuration took roughly half the previous time.
- Led research and design for a consistent formula language, using customer evidence and competitor benchmarking to shape syntax decisions with Engineering.
- Co-led the Abax design-system business case with the head of design and worked on token architecture, components, governance, and the engineering pipeline across five squads.

Senior Product Designer & Co-founder

Kings of Mambo

Sep 2010 - Nov 2021 · Barcelona, hybrid

- Co-founded and led a UX studio for 11 years; designed products for media, retail, finance, legal, and culture clients.
- Designed CMS content-upload flows, e-commerce experiences, and back-office interfaces. Led work from research and information architecture through interaction design, prototyping, and delivery.
- Built CMS-connected front ends, reusable component libraries, and a shared starter kit with a build pipeline and CSS variables

SKILLS

Product design and research: Financial products, complex workflows, product architecture, multi-step flows, responsive and mobile web, interaction design, visual design, customer interviews, structured user testing
Design systems: Component architecture, states and variants, Figma libraries and variables, design tokens, documentation, governance
Prototyping and tools: Figma, FigJam, Figma Make, Figma MCP with Claude, Codex, HTML, CSS, JavaScript
Languages: Catalan and Spanish (native), English (fluent, C1)

EDUCATION

Higher National Diploma in Computing Design and Multimedia

ESI (Escuela de Sistemas Informáticos)

2002
