

Manel Leiva

Senior Product Designer, AI Products

SUMMARY

Senior Product Designer with 15 years designing complex B2B products.

Designed and shipped a production AI agent for financial data, released to all customers: conversation design, capability scoping, trust patterns.

Standardised formula syntax across a modeling layer for financial planning software; DCA bot user on Kraken.

Barcelona

EXPERIENCE

Senior Product Designer

Remuner

May 2024 - Mar 2026 · Barcelona, hybrid

Designed and shipped an AI agent, a chat panel plus embedded in-app answers where sales reps and managers consult their commission data, sales plans, and team info; released to all customers.

Owned conversation design and trust patterns: tone, answer formats, capability scoping with the founders and engineering, post-GA iteration on response formats and per-customer terminology.

Sole designer; owned product design and the design system across the full product surface, including a token pipeline from Token Studio to a published npm package with CI validation.

Senior Product Designer

Abacum

Jan 2022 - Apr 2024 · Barcelona, hybrid

Standardised formula syntax across the modeling layer from competitor benchmarking and customer call evidence; made the syntax decisions together with an engineer.

Designed the Dataset Manager, a UI layer over JSON dataset configuration that let finance teams configure their data without engineering support.

Built the Abax design system alongside product work: two-tier token architecture, adopted across five squads.

Senior UX Designer & Co-founder

Kings of Mambo

Sep 2010 - Nov 2021 · Barcelona, hybrid

Co-founded and led a UX studio for 11 years; end-to-end product design for clients in media, retail, finance, legal, and culture.

Built much of what I designed: component libraries in Sketch mapped to front-end code, and by 2020 a shared front-end starter kit with a build pipeline and a CSS variables settings layer.

Taught UX and digital design at postgraduate level.

SKILLS

Design: Figma, Figma Make, Token Studio, Storybook, Chromatic

Systems: Design tokens, Style Dictionary, component architecture, ESLint adoption rules

Research: Structured user testing, synthesis, Jobs to Be Done

Prototyping: Figma Make (Claude-powered), high-fidelity interaction design

Collaboration: Cross-functional facilitation, engineering alignment, stakeholder presentations

Tools: GitHub, npm, VSCode, Vercel

EDUCATION

Higher National Diploma in Computing Design and Multimedia

ESI (Escuela de Sistemas Informáticos)

2002
