SUMMARY

Senior Product Designer with 15 years of design experience, focused on complex B2B financial products.

Led research and design for self-service workflows that help finance teams configure and manage their data without expert support.

Works across product architecture, interaction design, design systems, and engineering delivery, making complex product logic understandable and usable.

EXPERIENCE

Senior Product Designer

Remuner

May 2024 - Mar 2026 · Barcelona, hybrid

- Sole designer; owned product design and the design system across a B2B sales-compensation platform, working directly with founders and engineers.
- Ran an ongoing product audit across screens and workflows, defining shared patterns, variants, and states with engineering and sequencing improvements with the roadmap.
- Designed and shipped an AI agent for commission and sales-plan questions; owned conversation design, answer formats, and trust patterns, with capability decisions shared with founders and engineering.
- Built and maintained the component library; used Codex to extend token-pipeline validation and drift checks, with changes reviewed and merged by engineers.

Senior Product Designer

Abacum

Jan 2022 - Apr 2024 · Barcelona, hybrid

- Led design and customer testing for the Dataset Manager, a guided UI over JSON configuration that let finance teams manage their data without engineering support.
- The implementation team's read was that standard dataset configuration took roughly half the previous time; customers could reach a working configuration in their first session.
- Standardised formula syntax across the financial-modeling layer using customer-call evidence and competitor research; made syntax decisions with engineering.
- Co-led the Abax design-system business case with the head of design and worked on its token architecture, component library, governance, and engineering pipeline across five squads.

Senior Product Designer & Co-founder

Kings of Mambo

Sep 2010 - Nov 2021 · Barcelona, hybrid

- Co-founded and led a UX studio for 11 years; designed products for media, retail, finance, legal, and culture clients.
- Led end-to-end work across research, information architecture, interaction design, visual design, and delivery.
- Built CMS-connected front ends, reusable component libraries, and a shared starter kit with a build pipeline and CSS variables.

SKILLS

Product design: B2B products, product architecture, complex workflows, interaction design, visual design
Self-service: Configuration workflows, guided setup, validation, professional tools
Research: Structured user testing, customer-call synthesis, qualitative evidence
Systems: Cross-product patterns, component libraries, design tokens, Token Studio, Style Dictionary, Storybook
Collaboration: Figma, FigJam, GitHub, engineering alignment, cross-functional facilitation
Prototyping and AI tools: Figma Make, Codex, HTML, CSS, JavaScript

EDUCATION

Higher National Diploma in Computing Design and Multimedia

ESI (Escuela de Sistemas Informáticos)

2002
